## EDUCATION

### Department of Computer Engineering

The Alexander Technological Educational Institute of Thessaloniki

2015 - 2023

*Bachelor's Thesis: Application of Constraint Programming for the Solution of the Timetabling Problem*

- The program was created in the Python language with the assistance of Google's OR-Tools library to provide solutions for timetabling in educational institutions.

## PERSONAL PROJECTS

### CalculatorApp

- Developed a web-based calculator application using HTML, CSS, and JavaScript. Leveraged ES6 syntax and classes for a clean and organized codebase. The calculator allows users to perform basic arithmetic operations and provides a user-friendly interface.
